CORONARY INTERVENTIONS | IMAGING | STRUCTURAL PROGRAMME

10-12 OCTOBER 2025 | FAIRMONT MUMBAI

Near Mumbai International Airport

Dear Colleagues,

The field of cardiology is advancing at an exhilarating pace—and CRISP 2025 is where we converge to stay ahead of the curve.

This October, we return with a more immersive, clinically driven experience at the Fairmont Mumbai. Inspired by the momentum of previous editions and shaped by feedback from peers across India and beyond, this year's edition of CRISP is designed to spark dialogue, deepen skills, and redefine standards.

From live case transmissions to simulation labs and a renewed spotlight on structural interventions, CRISP 2025 is built around real-world relevance. We're curating tracks that challenge convention, integrate the latest imaging modalities, and bring the heart team to the center of every decision.

Whether you're a seasoned interventionalist or an emerging voice in the field—this is your space.

We look forward to your participation in co-creating a conference that's as impactful as it is unforgettable.

Warm Regards,

The Organising Committee
CRISP 2025

Dr Ankur Phatarpekar
MD, DM (Cardiology), FSCAI

Dr Rahul Gupta
MD, DM (Cardiology), FSCAI, FESC

COURSE DIRECTORS

Dr Ajit Menon

Dr Anand Rao

Dr Jaspal Arneja

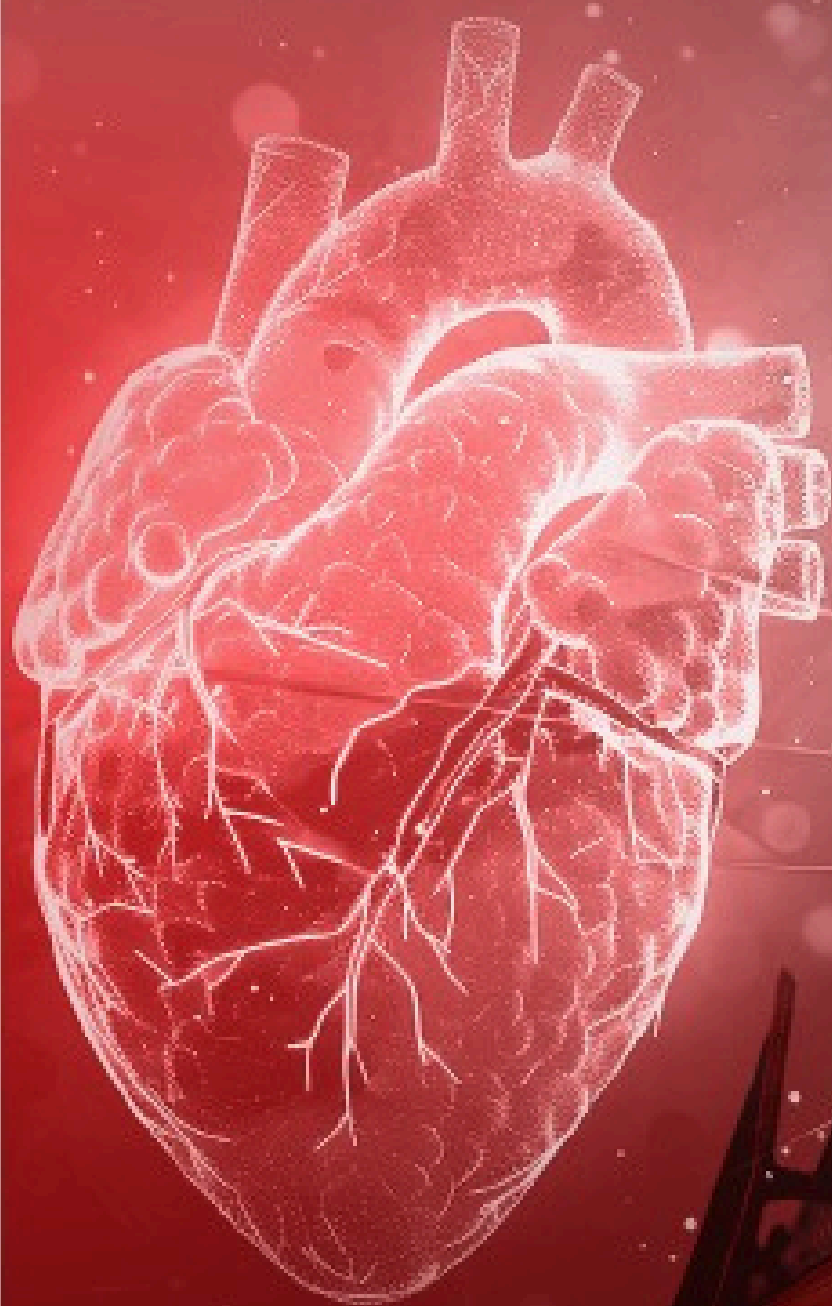

Dr Suhas Hardas

CRISP
CONFERENCE **2025**

AGENDA | SESSIONS

**CATH LAB THEATRE -
THE INTERVENTIONAL HALL**

01:30 PM - 01:55 PM

INAUGURATION

02:00 PM - 02:45 PM

Session 1

**From Puncture to Rupture - Vascular Access
The Rights and The Wrongs**

Closure Device - Have we Heard the Final Word

Sono Guided Puncture - Need of the Hour: From
Angioplasty to Pacemakers

Complications & Bailouts of Vascular Access

CRISP Consensus

02:50 PM - 03:50 PM

Session 1

Hardware

Did I ask for the Right Guide and Extension

Balloons: Are they Same or Different?

Wires Too Many or Too Few

Microcatheter - Did I Get it Right?

CRISP Consensus

03:55 PM - 04:45 PM

Session 3

Inside the Artery - Decoding the Coronary Physiology

Basics of Coronary Physiology - Understanding the R's

The Newer Tools to Diagnose CMD and Treatment Strategies

CRISP Consensus

04:50 PM - 05:50 PM

Session 4

Leave Nothing Behind - DCB and Metalless PCI

DCB - From Bed to Balloon Preparation

DCB - Various Scenarios

My go-to DCB - Sirolimus vs Paclitaxel - Show me the Evidence

BRS in the Era of Imaging - Righting the Wrongs

CRISP Consensus

05:55 PM - 06:55 PM

Session 5

Stent Vault

Stent Design and Polymer - How are they Different

My go-to Stent - Why When Where

Bioabsorbable Stents - Why I Would use it in The DCB Era:
My Experience and Publication

Gazing at the Crystal Ball - The Future of Stent Technology

CRISP Consensus

07:00 PM - 08:40 PM

Session 6

Live Cases from St Francis Hospital, New York

Live Case 1: Photon-Counting CT Guided Angioplasty

Live Case 2: Lampoon with TMVR

NIGHTMARE SESSIONS

COMPLICATIONS

Fri 10th Oct | 10PM – 1AM

POPCORN, PRESENTATIONS
& CARDIOLOGY INSIGHTS!

Join Us for Night Sessions: Cardiology Unplugged!

09:00 AM - 09:35 AM

Session 7

Ostial Symposia and more - How do I do it - Tips and Tricks

Aorto Ostial Lesions - Left Main / RCA

Ostial LAD and LCX

CRISP Consensus

09:40 AM - 10:40 AM

Session 8

Left Main PCI - Back to the Board Room

Approaches and Data in LM Interventions

LM DK Crush Step by Step with Imaging

Left Main PCI - The Numbers You Need to Know

Calcified LM Bifurcation Disease - PCI Strategies

CRISP Consensus

10:45 AM - 11:55 AM

Session 9

Bifurcation - Side and Main The PCI Challenge

Provisional Bifurcation Strategies - From the Beginning to the End

Side Branch Compromise - What it is and How much is too much?

DK Crush Troubleshooting

10:45 AM - 11:55 AM

Session 9

Bifurcation - Side and Main The PCI Challenge

Culotte / Mini Crush Troubleshooting

Are DEB / Dedicated Bifurcation Stents - The Death Knell
for Dedicated Bifurcation Strategies?

CRISP Consensus

12:00 PM - 01:35 PM

Session 10

Calcium Management - Cracking the Core

The Calcium Algorithm - Have We got it Right

Balloons in Plaque Modification - OPN / Cutting

Atherectomy in Plaque Modification - Rotational Vs Orbital

IVL - Sound & Safe

A Single Device Strategy for Eccentric / Concentric /
Nodular Calcium

CRISP Consensus

01:35 PM - 02:00 PM

Working Lunch

02:05 PM - 03:40 PM

Session 11

Imaging - Beyond the Shadows I

Imager - My Journey from Exclusive to Inclusive

Imaging in Left Main Step By Step

AI in Imaging - The Ever Growing Universe

Bail Out Imaging

Case in Box

CRISP Consensus

03:45 PM - 04:55 PM

Session 12

Imaging - Beyond the Shadows II

Saline Contrast - Gentle on the Heart and Lighter on Kidneys

ACS Due to Ambiguous Angio Lesion - Does Coronary Imaging Help?

Imaging in Stent Failure

How Imaging Lied to me?

Imaging of Vulnerable Plaque

CRISP Consensus

Tea / Coffee Break

05:00 PM - 05:30 PM

Session 13

Growth & Future Proofing

Learn, Unlearn, Relearn - The Futureproof Cardiologist

How to Write and Publish a Research Paper

Core Lab - The Need of the Hour

05:35 PM - 06:35 PM

Session 14

TEER - Clips & More

Patient Selection and Suitability - With Focus on Pre
Procedural ECHO

Procedural Steps - Understanding the Knobology

Degenerative Mitral Regurgitation
- Procedural TIPS and Tricks

Functional Mitral Regurgitation
- Procedural TIPS and Tricks

CRISP Consensus

06:40 PM - 07:50 PM

Session 15

TAVI - The Genesis

Understanding of an Anatomy of Aortic from an
Interventional Cardiologist Perspective

CT Analysis in TAVI - The Basics and The Nuances

Step by Step Approach of TAVR

06:40 PM - 07:50 PM

Session 15

TAVI - The Genesis

TMVR from Basics to Complex

TAVI and TMVR in the same Setting - The Data and My Experience

CRISP Discussion

07:55 PM - 09:30 PM

Session 16

TAVI - The Resurrection

Newer Platforms in TAVR

TAVR in Bicuspid Valve

Complications and Bailouts of TAVR
- From The A's to the Z's

Redo TAVI - Are we There Yet?

Alternate Access TAVI The Evidence and My Case Learning

Lifetime Management of the Elderly Patient with Aortic Valve Disease - Case Based Learning

My TAVI Experience - From The Genesis to The Resurrection

09:00 PM - 09:30 PM

Session 17

Panel Discussion

Panel discussion between the Stalwarts of Cardiology and Industry

09:00 AM - 10:00 AM

Session 23

STEMI - Learning the Science, Mastering the Art

STEMI gone Wrong Case Based Approach

Slow Flow No Flow- Push Hard Push Fast

Non Athrescoloratic Causes of STEMI - Masqueredes

STEMI Checklist - Dotting the i's and Crossing the T's

CRISP Consensus

10:05 AM - 11:15 AM

Session 24

CTO -Seeking the Channel, Creating the Path

How to Read an Angiography Before Planning a CTO PCI

Fundamental Basics of CTO Wires

Wire Escalation Matrix - When to Take a Leap

Step by Step - Retrograde Approach CTO PCI for Beginners

HDR Colombo to Carlino

Crisp Consensus

11:20 AM - 12:20 PM

Session 25

Structural Interventions Beyond the Valves

Transseptal Puncture for Various Procedures

Imaging Guided BMV - Old Wine in New Bottle

LA Appendage Device Closure - Evidence, Planning and Closure

Primary LAADC in The Era of Champion - AF Trial

Coronary Arterial Fistula Device Closure - My Experience

Atrial Septal Defect Device Closures - Difficult Case Scenarios

12:25 PM - 01:25 PM

Session 26

EP - Mapping the Heart, Pacing the Beat

Leadless and Limitless - New Era of Pacing

Conduction System Pacing - The need of the Hour

Ablation in Atrial Fibrillation - The indications and the Outcomes

Programme Optimisation - Post AICD

CRISP Consensus

02:15 PM Onwards

Lunch & Disperse

CRISP

CONFERENCE

2025

AGENDA | SESSIONS

MEDICAL 360° HALL

04:00 PM - 05:10 PM

Medical Management Session 1 - Heart Failure Unplugged

ARNI in all HF Subsets - Are We There Yet?

Quadruple Therapy: Is it just Enough to Start with Fantastic 4?

HFpEF - Why is it a Chameleon?

Management of Acute Heart Failure - From an intensive Care Perspective

What would Ideal Prescription of Heart Failure look like?

CRISP Consensus

05:15 PM - 06:15 PM

Medical Management Session 2 - Protecting the Flow of Life- Antiplatelets, Anticoagulants and More

HBR - The Current Approach

Ticagrelor to Prasugrel - Which is more Worthy a Suitor?

Gp IIb/IIIa - Conditions to Use & Avoid: Discussing the Evidence.

DOAC - My go-to DOAC Discussing Various Scenarios.

CRISP Consensus

06:20 PM - 07:00 PM

Lone Wolf Cardiologist - Experiences from Real India

9:30 AM to 10:40 AM

Session 18

TAVI Refresher

Fluoroscopic Anatomy for the Guidance of Percutaneous Transcatheter Interventions

Engineering a TAVI Program: The Changing Face of Valvular Heart Disease in India

TAVI in Asymptomatic Severe AS

Valve Selection for TAVI: Which a Valve for Which Anatomy

Top Ten Trials in TAVI 2024–2025

CRISP Consensus

10:45 AM to 11:05 AM

Session 19

Confronting the Coronary Behemoth - Complex PCI

Tortuous and Anomalous Vessels PCI

Long and Diffuse Lesion - The Vintage Indian Arteries

11:10 AM - 12:20 PM

Medical Management Session 3 - Rethinking the Risks & Redefining the Therapy - Lipids

Whom and When to Screen & Treat For Dyslipidemia - The Young Indian Corundrum

CIMT / ABI / CAC Score / Lp (a) - Impact of Risk Modifiers

Inclisiran & PCSK9i – Have We Found the Antidote We Were Looking for?

Statins + Bempedoic Acid + Ezetimibe - Is it The Combination We were Looking for ?

Triglycerides - So Many or So Few Drugs to Treat

CRISP Consensus

12:25 PM - 12:45 PM

Session 20

oHCM Revisited

From missed to measured: Closing gaps in hypertrophic cardiomyopathy (HCM)

Novel therapy in OHCM management with Mavacamten (CMI): Evidences to Guidelines

12:50 PM - 01:50 PM

Session 21

Surgery Decoded for the Cardiologists

Cardiac Surgery Explained to a Cardiologist - Myths about Cardiac Surgery, Debunked

Structural Heart & Aortic Surgery

Surgical Bailouts of a Complicated Interventional Procedure

Cardiac Transplant & Ventricular Assist Device
- When Should We Refer?

CRISP Consensus

01:35 PM - 02:00 PM

Working Lunch

02:00 PM - 02:55 PM

Session 22

Minecraft Session / What's Next Session

03:00 PM - 03:30 PM

Cardiology 360° Session 1 - Clinical & Technological Evolution

3D Stent: A New Era in Stent Enhancement

Cath Lab: How Do I Select - Radiation, Monetary & Other Considerations

Image Fusion in Structural Heart Interventions: Echo Navigator, Heart Navigator and More

RENAL DENERVATION

03:45 PM - 05:00 PM

Cardiology 360° Session 2 - Practice & Programme Design

Modern and Model Cardiology OPD

Practice Management in the Era of Social Media

Breaking Bad News - Grief & Bereavement Counselling

Medicolegal Aspects of Cardiology

Medical Insurance - Are We There Yet?

Asset & Hospital Management for a Cardiologist - How Do We Add Value

05:05 PM - 06:25 PM

Medical Management Session 4 - 2D Echo Symposia

Echocardiography - The Fine Art Rather Than Science

Focus on POCUS - The Magic of Early Pickup

Quantification of Regurgitant Lesions - The Biggest Fear of a Cardiologist - Let's Do it

3D Image Acquisition - Nuts and Bolts

TEE - The Knobs and The Dials

Aortic Stenosis - Multiple Variants - Decoding The Hydra

CRISP Consensus

06:30 PM - 07:20 PM

Medical Management Session 5 - Diabetes Symposia

Insulin - Dosages, Method, Delivery & Variants - Addition to the Cardiologist Tool Box

Algorithmic Approach of Cardio-diabetic Patients - Is It Different

Newer Glucose Monitoring Systems and Pumps

GLP1 & SGLT2 - A Marriage or An Affair

Smart Diabetes Update 2025

07:25 PM - 07:55 PM

Cardiology 360° Session 3 - Spotlight Talk

The Changing Landscape of Indian Healthcare

Discussion

10:00 PM - 10:45 PM

Night Workshop 1 - Imaging Workshop

10:45 PM - 11:30 PM

Night Workshop 2 - Electrosurgery in Structural Heart

11:30 PM - 12:15 AM

Night Workshop 3 - Left Bundle and Leadless Pacing

10:00 AM - 11:10 AM

Medical Management Session 6 - RX

Beta blockers - Old Wine & Old Bottle
- Do we Require it Today?

MRA - A Comeback of Sorts in Heart Failure.

Digoxin - What's the Evidence?

SGLT2 - Is it the Elixir of Life - Extended Indications

GLP1 - The True Metabolic Modulators

CRISP Consensus

11:15 AM - 12:45 PM

Session 27 - Complex Cases - Showcasing the Wizardry

Coronary Case 1

Coronary Case 2

Coronary Case 3

Coronary Case 4

Complex Case 5

11:15 AM - 12:45 PM

Session 27 - Complex Cases - Showcasing the Wizardry

Complex Case 6

Complex Case 7

Complex Case 8

Complex Case 9

Complex Case 10

01:30 PM - 02:10 PM

Valedictory Function

02:15 PM Onwards

Lunch & Disperse

CRISP

CONFERENCE 2025

AGENDA | SESSIONS

TRAINING VILLAGES

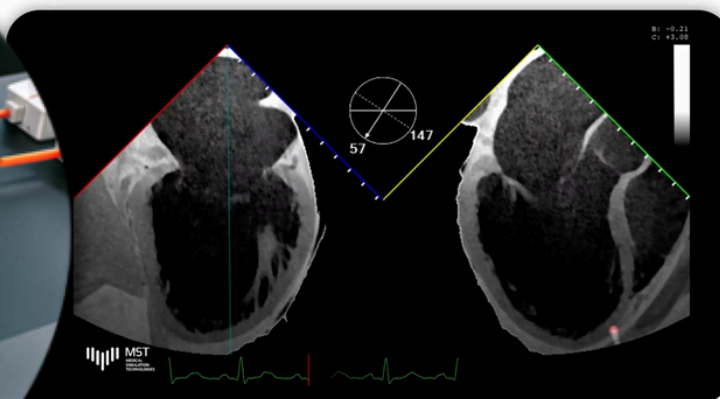

**“TELL ME AND I FORGET.
SHOW ME AND I MAY REMEMBER.
BUT SIMULATE IT ... AND I WON'T FORGET IT.”**

HANDS-ON SIMULATION LABS

- IVUS
- OCT
- Mentice - TAVI
- M-TEER
- Mentice - TEE
- Bifurcation
- Orbital Atherectomy
- RDN
- Vascular Closure Device

CRISP

CONFERENCE

2025

10-12 OCTOBER | FAIRMONT MUMBAI

THE STAGE IS SET. THE SPOTLIGHT IS YOURS.
