CORONARY INTERVENTIONS | IMAGING | STRUCTURAL PROGRAMME

**10-12 OCTOBER 2025**  
**FAIRMONT MUMBAI**

Near Mumbai International Airport

Dear Colleagues,

The field of cardiology is advancing at an exhilarating pace—and CRISP 2025 is where we converge to stay ahead of the curve.

This October, we return with a more immersive, clinically driven experience at the Fairmont Mumbai. Inspired by the momentum of previous editions and shaped by feedback from peers across India and beyond, this year's edition of CRISP is designed to spark dialogue, deepen skills, and redefine standards.

From live case transmissions to simulation labs and a renewed spotlight on structural interventions, CRISP 2025 is built around real-world relevance. We're curating tracks that challenge convention, integrate the latest imaging modalities, and bring the heart team to the center of every decision.

Whether you're a seasoned interventionalist or an emerging voice in the field—this is your space.

We look forward to your participation in co-creating a conference that's as impactful as it is unforgettable.

Warm Regards,

### **The Organising Committee CRISP 2025**

## WHY ATTEND CRISP 2025?

### **Cardiology 360° – Beyond the Cathlab**

Where real-world cardiology takes centre stage. Practice beyond theory.

### **Live Simulations & Procedural Walkthroughs**

Experience complex interventions unfold in real time—no filter, no fluff.

### **Global & National Faculty**

Learn directly from masters across continents. Debate. Question. Apply.

### **Advanced Imaging & AI Integration**

From IVUS to Ultreon™ to zero-contrast imaging—see it, believe it, practice it.

### **Structural Heart Interventions – Reinvented**

TAVR, TEER, TMVR, LAA closures, Bicuspid challenges—discussed and deconstructed.

### **Consensus Panels & Nightmares Sessions**

Because learning from real-world mis-steps builds real-world mastery.

**COME FOR THE SCIENCE. STAY FOR THE NUANCE.**
